Table 1: The 49 items that started the item reduction phase, by factor of the three-factor EFA solution (principal axis, polychoric correlations, all tools together). λ: loading on the item's factor. Excluded before this phase: P092, P095, P209, P213, P102, P201, P207, P06, P105, P104, P103 (second loading > 0.32) and P049, P031, P305, P09, P212 (missing data).

Factor	Code	Item	λ
Task_cognition (19)	P062	The system encouraged me to explore my data further	0.83
	P064	The tool encouraged me to think deeply about my data	0.75
	P301	The system was useful for me	0.73
	P057	The system helped me to gain knowledge about my data	0.71
	P052	The system helped me to focus on my tasks	0.71
	P029	The system provided useful information to help me accomplish my tasks	0.61
	P030	The system was effective for my tasks	0.60
	P060	I enjoyed using this system	0.58
	P083	The system stimulated my thinking process	0.56
	P04A	I would use this system frequently if I had a reason to	0.56
	P027	I could complete my essential tasks efficiently	0.54
	P208	I found the system interesting to use	0.54
	P302	The system helped me to understand the data	0.51
	P062C	The system helped to form and evaluate hypotheses about my data	0.51
	P025	Once I knew how to use it, the tool made it easy to get answers to my questions about the data	0.49
	P4026B	Once I learned to use it, accomplishing my tasks was straightforward	0.44
	P072	I felt satisfied with this system	0.43
	P037	The system integrates well into my overall data analysis workflow	0.40
	P041	I found the system's components worked seamlessly together	0.36
System (14)	P088	I found the system simple to understand	0.89
	P026	I found it easy to get started using this system	0.88
	P214	Using this system did not require a lot of effort from me	0.87
	P4026A	Getting the tool configured for my analysis was straightforward	0.79
	P074	I did not feel frustrated when using this system	0.73
	P086	The system was self-explanatory	0.73
	P054	I found it intuitive to interact with the system	0.66
	P024	Using the tool's options and controls was intuitive for me	0.65
	P204	I only needed to learn a few things before I could get going with this system	0.62
	P074A	I did not feel mentally drained after using this system	0.59
	P084	I felt confident that I was using the system correctly	0.51
	P022	I can easily remember how to use the system	0.51
	P096	I found it straightforward to link information across different visualizations in the system	0.41
	P203	When I made a mistake, it was easy to get back on track	0.41
Visualization (16)	P106	The visualizations I saw seemed to represent the data faithfully	0.78
	P05	The visual representations I saw were not too complex for me	0.70
	P089	The visual representations I saw were simple to understand	0.65
	P068	I found the system consistent in that the same actions led to the same outcomes	0.63
	P098	I found the visual representations provided by the system were appropriate	0.58
	P211	The system made it easy to visualize my data in different ways	0.52
	P097	Using the system, I could easily retrieve information from my data	0.52
	P205	I could clearly see data features (for example, a minimum, an outlier, or a trend) in the visualizations provided	0.46
	P012	The system felt consistent while I was interacting with the data	0.45
	P022A	I can easily remember how to read the visualizations in the system	0.45
	P206	I could easily identify relevant information in the visualizations provided by the system	0.45
	P067	I could safely engage in a trial-and-error analysis process	0.43
	P097A	I could easily navigate between visualizations	0.35

Factor	Code	Item	λ
	P014	I could complete my analysis without having to switch to another tool	0.34
	P033	I found the system's response time satisfactory	0.32
	P045A	The system reacted to my inputs as I expected	0.31
